

# Creating Repl.it and Pastebin accounts

You will need an email address that you can access on the computer you are currently using. (Important if you are using a school or public computer)

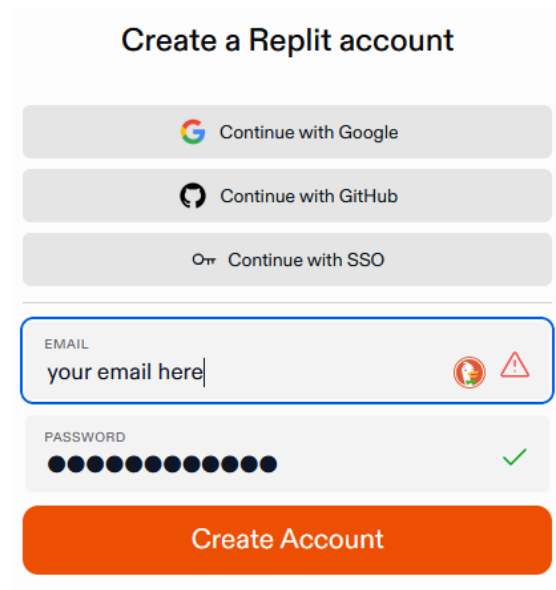

Use the browser of your choice and go to <https://replit.com/>

Click the button “Sign up for free”:

Type your email address and a password.

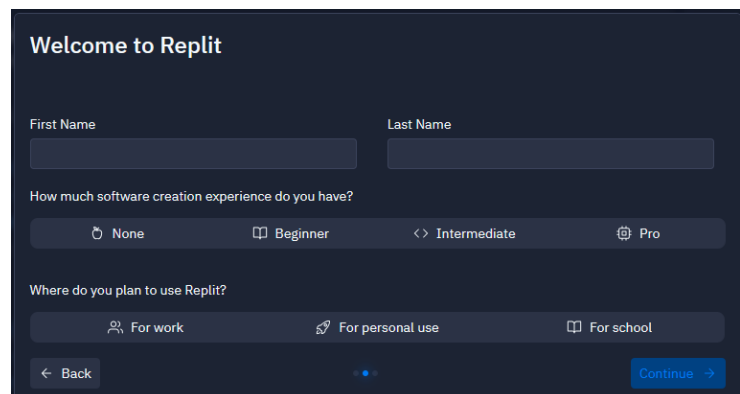

Make sure you remember / write down your password!

Click “Create Account”

A screenshot of the 'Create a Replit account' page. At the top, there are three buttons: 'Continue with Google' (with the Google logo), 'Continue with GitHub' (with the GitHub logo), and 'Continue with SSO' (with a key icon). Below these are two input fields. The 'EMAIL' field contains the placeholder text 'your email here' and has a red warning icon on the right. The 'PASSWORD' field is filled with black dots and has a green checkmark on the right. At the bottom is a large orange button labeled 'Create Account'.

Fill in your name and click on the relevant buttons for experience and usage. (Either personal or school)

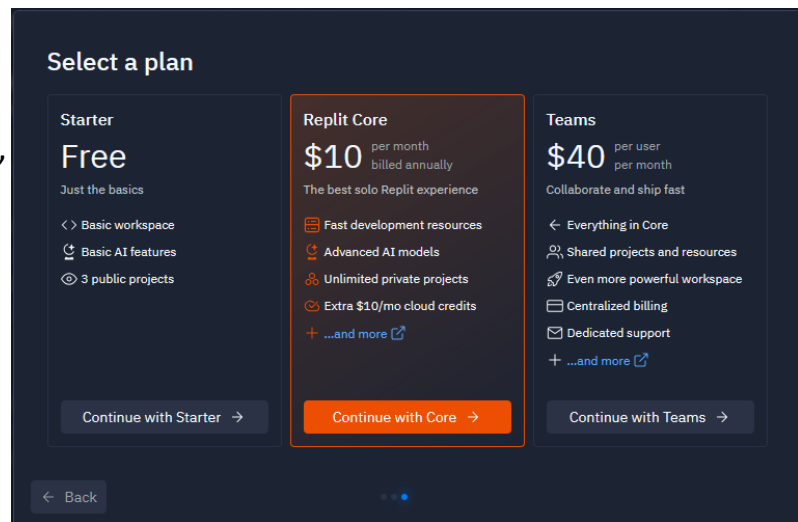

Click “Continue”

A screenshot of the 'Welcome to Replit' page. It has a dark background. At the top, it says 'Welcome to Replit'. Below that are two input fields for 'First Name' and 'Last Name'. Then, a question 'How much software creation experience do you have?' is followed by four buttons: 'None', 'Beginner', 'Intermediate', and 'Pro'. Below that, the question 'Where do you plan to use Replit?' is followed by three buttons: 'For work', 'For personal use', and 'For school'. At the bottom, there is a 'Back' button on the left and a 'Continue' button on the right.

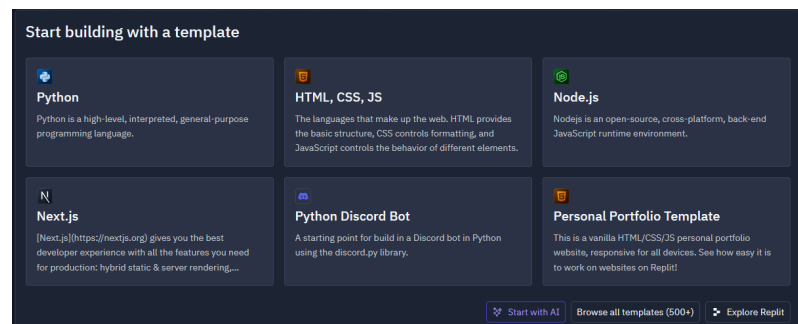

IMPORTANT!

Click on “Continue with Starter”

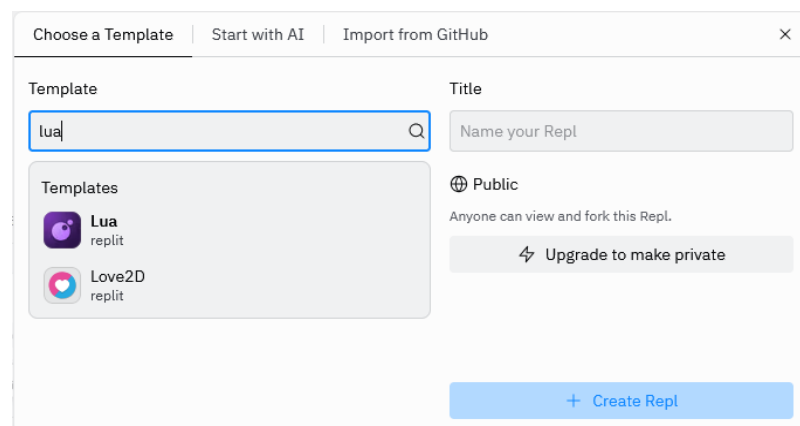

The button is under the “Free” heading

Click on  
“Browse all templates (500+)”  
(Lower part of the window)

Type “Lua” into the search bar  
Click “Lua” on the drop-down.

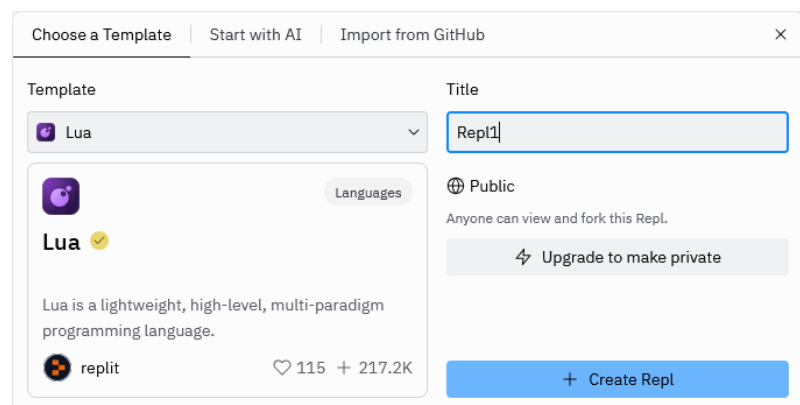

Change the title to:  
“Repl1”

They will constantly try to get  
you to “Upgrade”

which means “Pay For”  
Do not be tempted!

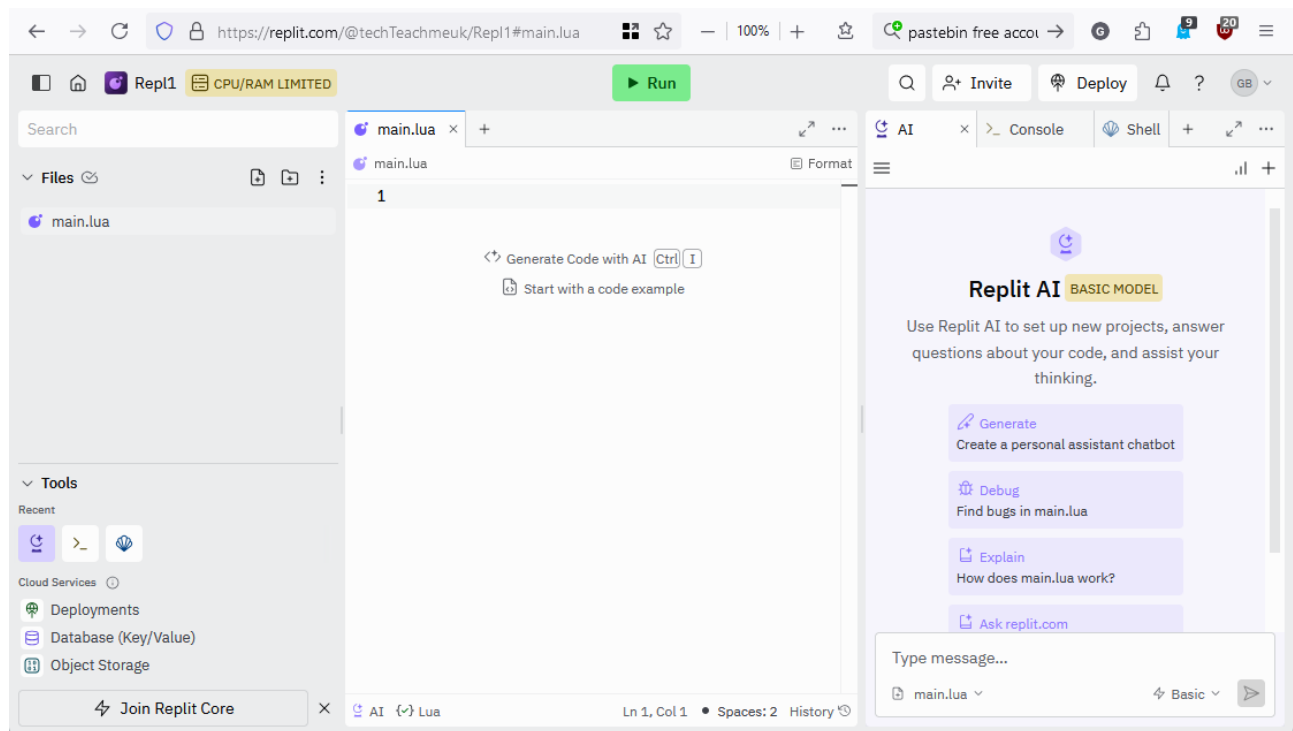

Click “Create Repl”

You will now be taken to your newly created project. You can click along with the “Welcome to the workspace” tutorial if you wish.

Please DO NOT use the Replit AI. You are doing this to learn Lua. When you are a master of the language you can then use AI and be able to determine whether the code it creates is workable, or can be adapted for your purposes.

The code window is now ready to use.

# Pastebin

Go to <https://pastebin.com/> and click the “Sign Up” button

The image shows a screenshot of the Pastebin website's sign-up interface. At the top right, there is a user status bar showing 'Hello Guest' with a 'Sign Up' button, a 'Login' button, and social login options for Facebook, Twitter, and Google. Below this is a dark blue navigation bar with the 'PASTEBIN' logo, links for 'API', 'TOOLS', 'FAQ', a '+ paste' button, and a search bar. The main section is titled 'Sign Up Page' and includes a welcome message: 'Join the Pastebin community with over 4,000,000 members!'. It features three social login buttons (Facebook, Twitter, Google) and an 'OR' separator. The registration form contains fields for 'Username', 'Email Address', and 'Password', each with a red asterisk indicating it is required. The 'Username' field has a green 'Username OK!' message below it. The 'Email Address' field has a '.com' domain suggestion and a cursor icon. The 'Password' field has a masked password '.....'. Below the fields is a checkbox for 'I agree to the terms of service, default notification settings and privacy statement.' with a green checkmark. A CAPTCHA section shows the text 'SRDR6M' and a distorted image of the same text. A 'Create My Account' button is at the bottom. On the right side, a 'RELATED PAGES' sidebar lists links: 'Create New Account?', 'Forgot Username?', 'Forgot Password?', and 'No Activation Mail?'.

Enter a username.

If already in use, you will be warned.

Enter email and password.
